

May 2018

Dear Prospective Program Director:

This is a unique, stand-out opportunity...and here's why:

- Mission:
  - CHCW has always had 2 missions: Service and Education.
  - Our clinical services and our training programs are aimed at expanding primary care access and promoting health equity.
  - Our emphasis on training for rural needs is amplified with our Ellensburg rural training satellite.
- Stability:
  - In the 25 year history of CWFMR, you would be its third Program Director
    - I am the founding CEO, and was the Program Director for the first 10 years
    - Dr. Russell Maier has been the Program Director for 15 years
  - Sponsorship: Our participating community hospitals (Virginia Mason Memorial and Astria Regional Hospital) are local non-profit healthcare systems that strongly participate with and support the program.
- Control:
  - The Program Director is an essential member CHCW senior leadership group.
  - CHCW is the sponsoring institution for the program accreditation, and directly controls the family practice teaching clinics.
- Environment:
  - CHCW and its CWFMR program are key providers in the communities we serve. The resident/learner plays a vital role in the lives of our people.
  - CWFMR is the only residency program in our communities.
  - For those interested in quality of life, and not tied to a large metropolitan location, Yakima has oh so much to offer.

I look forward to an opportunity soon to explore your interest in this unique opportunity.

Sincerely,

A handwritten signature in blue ink, appearing to read "Mike Maples", written in a cursive style.

Mike Maples, MD  
CEO
